

BLUE RIDGE COMMUNITY COLLEGE

Flat Rock, NC (USDA Hardiness Zone 7)

2009 ANNUAL REPORT

2009 was a wetter than normal year and we have been getting a lot of snow and ice. I'm sure that there will be a lot of clean-up to do as soon as we get a break in the weather. We have not been able to assess any damage to the hollies yet.

We plan to add some new hollies this season and include them in on our next report.

We had a lot of berries in 2009 as we normally do. We had no special projects this season.

David Tabor
BRCC Grounds Supervisor
