

CALLAWAY GARDENS

Pine Mountain, GA USDA Hardiness Zone 7b)

Temperatures for the year were near the averages for Georgia, but rainfall was well above the norm. Fruit set was abundant, and we have had very colorful fall and winter on all holly species in our Garden.

We added plantings of *I. (cornuta × aquifolium)* 'Nellie R. Stevens', and *I. 'Conin' Robin*TM. We removed *I. opaca* 'Perle LeClair' from the collection.

Kathy Crye, Garden Services
